

Upcoming Energy Storage Conferences in California: Key Events to Watch

Upcoming Energy Storage Conferences in California: Key Events to Watch

North America's Premier Energy Storage Gatherings

While Pasadena currently has no confirmed energy storage conferences through 2025, Southern California remains a hotspot for major industry events. The Energy Storage International 2024 recently concluded at Anaheim Convention Center (September 9-12, 2024), drawing 31,918 attendees and 961 exhibitors across 45,014 sq.ft. This flagship event featured:

- Grid-scale battery innovations

- AI-powered energy management systems
